Battery Box
BATT

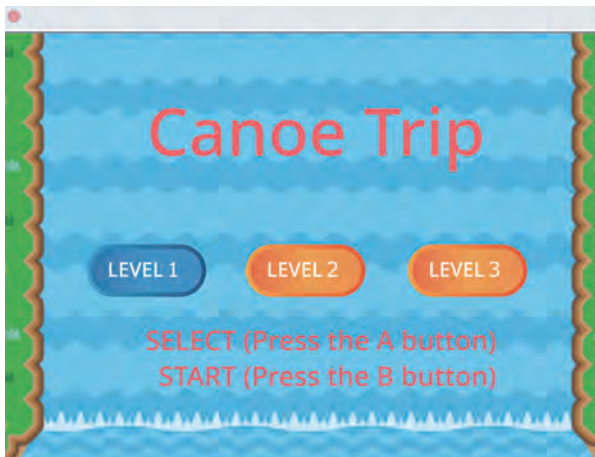

①

Open the sample program **CanoeTrip_1** on your computer or tablet and connect it to your ArtecRobo 2.0 unit via USB or Bluetooth to play your canoeing game!

②

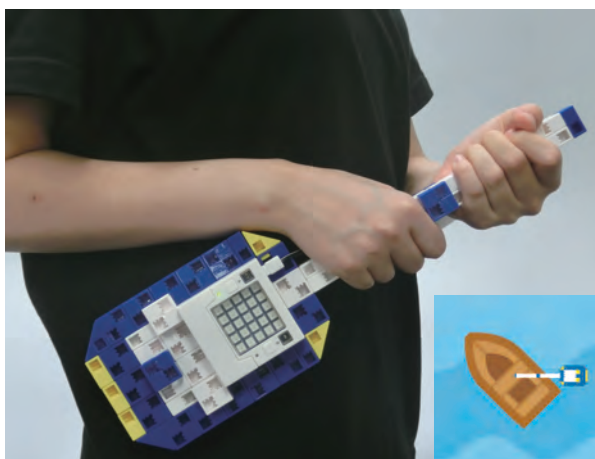

Press the  icon on top of your screen to switch to fullscreen.

Press the  to go to the game's level selection screen.

Press the A button to switch your selected level, and press the B button to start the game.

③

Using the Controller

Hold your controller so the blade of the paddle is pointed toward the right side of your body.

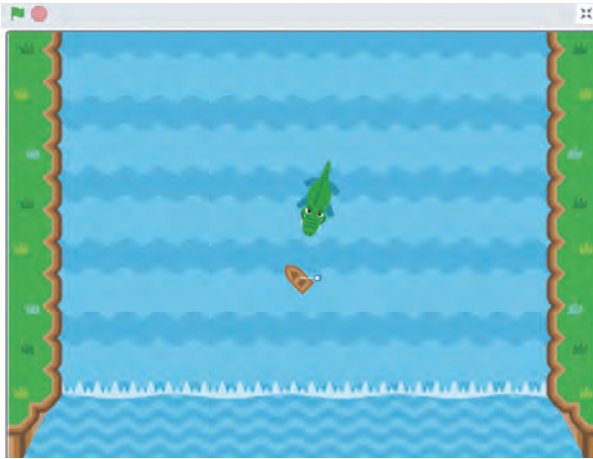

Paddle on your right to move your canoe to the left.

④

Paddle on your left to move your canoe to the right.

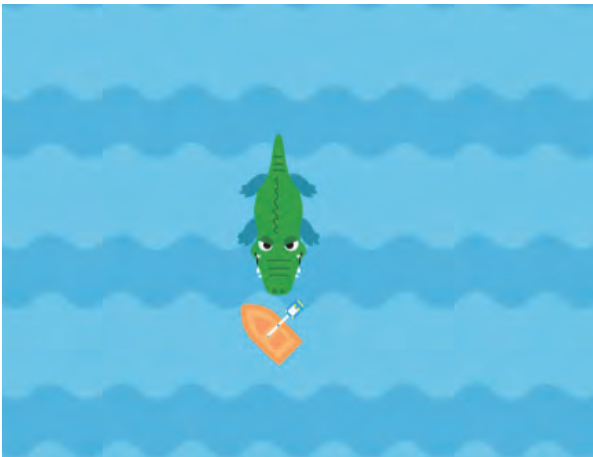

⑤

The river's current is flowing from the top of the screen to the waterfall at the bottom, so you'll need to keep paddling to reach the top of the screen!

If you reach the top of the screen, you win! But if you hit the waterfall and fall over the edge, it's game over!

⑥

If you run into the crocodile, your canoe will flash and you'll be pushed back toward the waterfall.
