1. Getting Started

This manual describes the installation and start up process for the Mac version of the Studuino:bit Software.

This text may be expanded or amended in the future to account for changes in the product or other factors.

2. Installing the Software

Download the install files, then begin the installation process. If the PC to which you intend to install the software does not have an internet connection, download on another PC and then transfer to the intended PC using a USB memory drive or other storage device.

2.1. Downloads

- ① Go to the ArtecRobo 2.0 website at <https://www.artec-kk.co.jp/artecrobo2/>
- ② Go to the **Software & Downloads** section.
- ③ Click the **Software Download** button under the **Mac** heading on the following page.

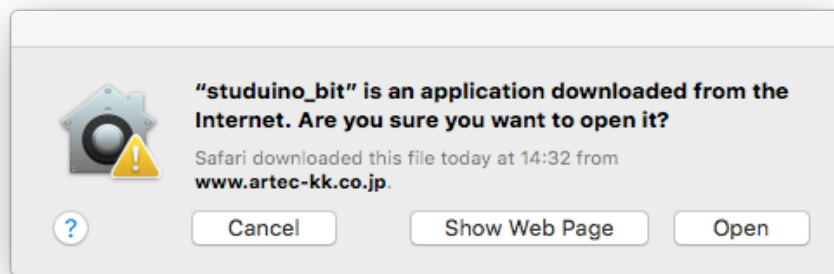

2.2. Installation

- ① Open the file after you finish downloading it.
- ② Move **StuduinoBit.app** into the **Applications** folder.

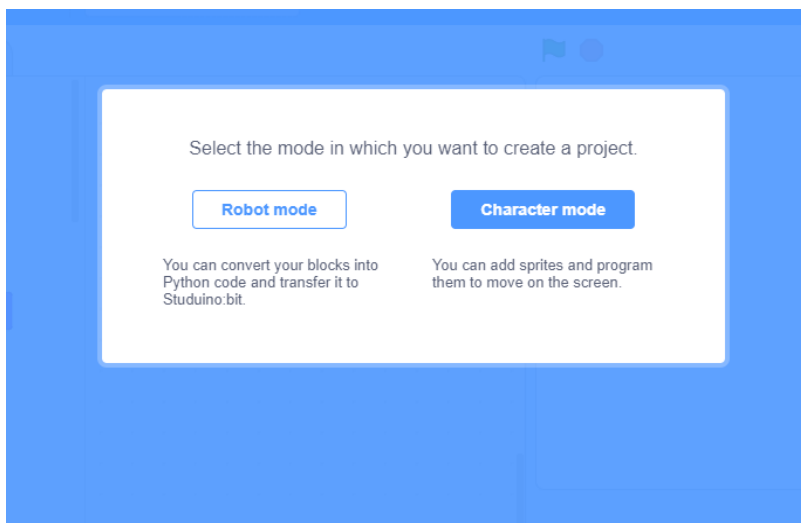

2.3. Start Up

- ① These steps are only necessary the first time you run the application. After first start-up you can run the program just by double-clicking **StuduinoBit.app**.
 1. Hold down the Control key and click on the **StuduinoBit.app** icon.
 2. Select **Open** from the menu that appears.
 3. The window shown below will appear and you'll need to select **Open**.

- ② You can pick your mode from the Start-Up screen.

2.4. Uninstalling the Software

Delete **StuduinoBit.app** from your Applications folder.
